

Lab 2: Electric Field and Potential

Report by: Natalie Tran

Performed by: Natalie Tran and Zachary Pouska

Date performed: 09/21/2022

1 Purpose

To study the relationship between electric field and the electric potential difference associated with it.

2 Theory

The relationship between the electric field and electric potential difference will follow the equation $\Delta V = -\int_a^b \vec{E} \cdot d\vec{s}$
